EXPERIENCE

Customer Success Manager, Salesforce Sep 2025 – Present

- Served as technical trusted advisor for Signature-tier enterprise accounts (Walmart, The GAP Inc., Kohl's, LyondellBasell, NationalGrid USA), guiding platform architecture decisions, integration strategies, and Salesforce roadmap alignment.
- Translated complex technical requirements into actionable success plans, bridging Engineering, Product, and business stakeholders to accelerate adoption and resolve critical platform challenges.
- Led technical escalation management for high-priority issues across Service Cloud, coordinating cross-functionally with TSE, R&D, and Product teams to drive resolution and prevent recurrence.
- Advised customers on release readiness, feature deprecations, and platform migrations, ensuring minimal disruption to enterprise-scale Salesforce environments.

Technical Support Engineer, Salesforce Jul 2024 – Aug 2025

- Subject Matter Expert and team lead for a 10-member specialist team, ensuring top-tier resolution of complex enterprise platform issues.
- Resolved 250+ complex platform cases – spanning APEX, integrations, and Service Cloud configuration – maintaining a 5-star customer satisfaction rating.
- Designed and delivered technical enablement programs for the Mexico specialist team using Instructional Design methodology to accelerate skill development and reduce average resolution time.

Salesforce Developer & Main Admin, Wizeline Apr 2023 – Jul 2024

- Promoted to Lead Platform Administrator, owning enterprise CRM platform architecture, security configuration, and the deployment lifecycle.
- Redesigned the CI/CD deployment lifecycle, cutting release cycle time by over 50% through pipeline automation and governance standards.
- Migrated 85%+ of legacy process automations to a modern declarative workflow architecture, improving maintainability and platform performance.

Salesforce Engineer & DevOps Support, Accenture Dec 2021 – Apr 2023

- Delivered L2/L3 technical resolutions including root cause analysis, debugging, and proactive infrastructure monitoring with Splunk across enterprise platform environments.
- Improved SLA compliance from 90% to 98%+ through systematic process optimization and automated incident-response workflows built in Python and Bash.
- Accelerated production support operations by 30% while maintaining a reopened-incident rate below 2%.

Salesforce Technical Consultant, Deloitte Jan 2021 – Dec 2021

- Automated key enterprise business processes using platform-native tooling and SQL-based data validation, reducing manual effort and improving data accuracy across client organizations.
- Led client-facing enablement including technical workshops, architecture reviews, and project governance as a trusted advisor on platform best practices.

Technical Instructor & Curriculum Designer, UNAM & Idiomatic Aug 2012 – Jul 2024

- Curriculum Development: Designed comprehensive learning curricula for adult professionals, incorporating Adult Learning Theory and evidence-based pedagogical frameworks.
- Instructional Design: Developed multi-modal learning materials and digital resources for self-paced and instructor-led training – directly applicable to developer enablement and technical onboarding.
- Pedagogical Expertise: Applied an Educational Psychology background to assess learner needs and adapt technical instruction for diverse groups across 12+ years.
